that exceed expectations.

BUILT FOR LONGEVITY

Products designed for
strength and durability.

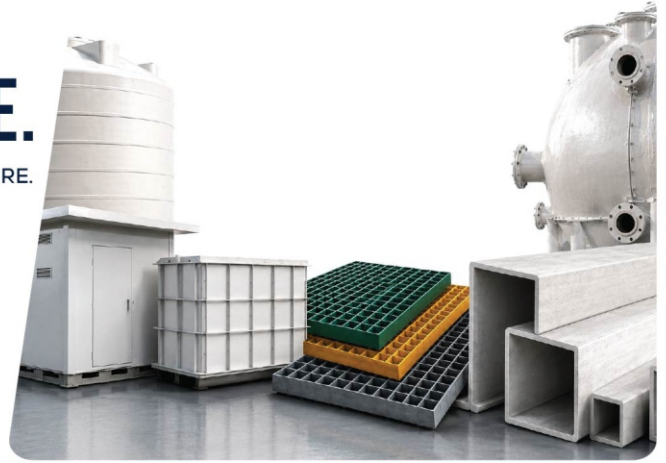

SERVING OIL & GAS, INFRASTRUCTURE & INDUSTRIAL SECTORS ACCROSS OMAN

DRIVING PURPOSE. BUILDING THE FUTURE.

QUALITY PRODUCTS. SKILLED PEOPLE. STRONGER FUTURE.

ABOUT US

Maarij International LLC is a leading manufacturer of high-quality GRP (Glass Reinforced Plastic) and FRP (Fibre Reinforced Plastic) products in Oman since 2011. With a strong commitment to quality, innovation, and customer satisfaction, we deliver durable and reliable solutions for a wide range of industries.

Our modern manufacturing facility, skilled workforce, and stringent quality control enable us to produce products that meet international standards and perform in the most demanding environments.

We proudly serve the Oil & Gas, Water & Wastewater, Infrastructure, Industrial, Marine, and many other sectors across Oman with excellence and integrity.

OUR MISSION

To deliver high-quality fiberglass (GRP) products through innovation, precision, and skilled workmanship. We are committed to meeting client expectations with reliable solutions, ensuring safety, durability, and long-term value in every project we execute.

OUR VISION

To become a leading and trusted manufacturer of fiberglass products in the region, recognized for excellence, innovation, and sustainable growth while continuously empowering our workforce and exceeding global standards.

OUR CORE VALUES

QUALITY FIRST
Precision in every product we deliver.

PEOPLE DRIVEN
Our skilled workforce is our greatest strength.

INNOVATION FOCUSED
Continuous improvement & technology to lead a better tomorrow.

Comprehensive GRP Solutions for Industrial, Infrastructure & Utility Applications

OUR COMPREHENSIVE PRODUCT RANGE

- Standard Water Storage Tanks (Various Capacities & Shapes)
- GRP Panel Tanks (Sectional Tanks)
- Septic Tanks & Sewage Holding Tanks
- Fuel & Chemical Storage Tanks
- GRP Canopies & Enclosures
- GRP Logos & Custom Letters
- GRP Shower Trays, Bathtubs, Wash Basins
- GRP Troughs & Shower Cubicles
- GRP Security Cabins & Portable Toilets
- GRP Manhole Covers & Drainage Systems
- Concrete Shuttering Moulds & Enclosures
- GRP Planter Boxes
- GRP Decorative Fountains
- GRP Cladding & Roofing Solutions
- Car Porch & Shelter Roofing
- GRP Fisherman Sheds & Utility Shelters
- Decorative Fascia Panels
- GRP Wind Covers & Bed Liners
- GRP Playground Equipment
- GRP/FRP Access Ladders
- GRP Cable Trays & Ducting Systems
- GRP Laminating & In-situ Lining Solutions
- Substation Kiosk For AI NAMA ELECTRICITY All Over Oman
- GRP SWIMMING POOL

GRP RECTANGULAR TANKS

GRP CHEMICAL TANKS

KEY FEATURES

- ✓ High strength-to-weight ratio
- ✓ Excellent corrosion & chemical resistance
- ✓ UV resistant & suitable for harsh environments
- ✓ Leak proof & maintenance free
- ✓ Customizable sizes & configurations
- ✓ Easy installation & long service life
- ✓ Designed & manufactured to international standards

TECHNICAL SPECIFICATIONS

- Material : High-Quality GRP/FRP
- Construction : Hand Lay-up/Filament Winding
- Capacities : 1,000 to 20,000 US Gallons (Custom sizes available)
- Shape : Cylindrical, Rectangle, Panel, Vertical, Customr
- Color : Light Grey/Custom
- Application : Water, Chemicals, Sewage, Process Liquids & More

TYPICAL USES

- ✓ Water Storage
- ✓ Chemical Storage
- ✓ Sewage & Wastewater
- ✓ Process & Industrial Liquids
- ✓ Fire Fighting Water
- ✓ RO & Filtration Plants
- ✓ Agriculture & Irrigation

TYPICAL CAPACITY RANGE (CYLINDRICAL ANKS)

CAPACITY (US GALLONS)	DIAMETER (m)	LENGTH (m)
1,000	1.00	2.20
2,000	2.00	2.60
5,000	2.50	4.00
7,000	2.50	5.50
10,000	3.00	5.60
20,000	3.00	11.00
25,000	3.50	10.00

Note: Custom sizes available as per requirement.

FEATURES

- ✓ Made from High-Quality GRP (Fiber-Reinforced Plastic)
- ✓ Integrated Toilet Unit for Convenience
- ✓ Weatherproof, UV-Resistant & Corrosion-Proof
- ✓ Excellent Insulation & Ventilation
- ✓ Secured Sliding Windows, Secure Door with Lock and Key
- ✓ Easy to Relocate & Maintain
- ✓ Customizable with Entry Points, Power Options, and Site Monitoring

SPECIFICATIONS

- Material:** High-Quality GRP (Fiberglass Reinforced Plastic)
- Sizes:** 20 ft Standard, 8-14 m² (customizable)
- Roof Type:** Flat / Slightly Sloped
- Interior Walls:** Bright White
- Doors:** GRP Door With Lock, Key & Ventilation

BUILT FOR TOUGH ENVIRONMENTS

GRP SECURITY CABIN (STANDARD)

- ✓ Durable GRP construction
- ✓ Excellent ventilation
- ✓ Insulated walls & roof
- ✓ Suitable for all weather conditions
- ✓ Secure door & windows
- ✓ Ideal for security personnel & site offices

GRP SECURITY CABIN WITH TOILET UNIT

- ✓ Integrated toilet with plumbing system
- ✓ Easy to clean & maintain
- ✓ Hygienic & comfortable interior
- ✓ Proper ventilation & lighting
- ✓ Perfect for remote locations & long working hours

★ KEY FEATURES

- ✓ High-strength & lightweight GRP construction
- ✓ Weatherproof, UV & corrosion resistant
- ✓ Insulated for thermal comfort
- ✓ Sliding windows with secure locks
- ✓ Fire-retardant & non-conductive material
- ✓ Customizable size, layout & accessories
- ✓ Low maintenance & long service life

✓ TYPICAL APPLICATIONS

- ✓ Material High-quality GRP (Fiberglass Reinforced Plastic)
- ✓ Wall Thickness: 4-6 mm (as per requirement)
- ✓ Roof Type: Flat/Slightly Sloped
- ✓ Insulation: PU (Polyurethane)/EPS (Expanded Panel)
- ✓ Flooring: Non-slip FRP/Plywood with Vinyl/Chequered Plate (Optional)
- ✓ Windows: Sliding/Fixed (GRP Frame)
- ✓ Electrical: LED Light, Switch, Socket
- ✓ MCB Distribution
- ✓ Plumbing (Toilet Unit): PVC Piping, Lush Tank, Wash Basin (Optional)

✓ APPLICATIONS

- ✓ Construction Sites
- ✓ Industrial & Manufacturing Units
- ✓ Gated Communities
- ✓ Oil & Gas Facilities
- ✓ Remote Locations & Camps
- ✓ Events & Temporary Facilities.

PREMIUM QUALITY GRP LADDERS FOR A SAFER TOMORROW

GRP KIOSK & ROOF SUBSTATION ENCLOSURES

FOR MEDC, RAECO & MAZOOON

**ENGINEERED
FOR SAFETY
BUILT TO LAST**

TRANSFORMERS / SUBSTATION APPLICATIONS

High-performance GRP (Fiberglass Reinforced Plastic) solutions designed for utility and substation applications in Oman. Engineered for durability, safety, and long-term performance in harsh environments.

CORROSION & RESISTANT PROOF

NON-CONDUCTIVE

UV & WEATHER RESISTANT

THREE DESIGN TO SUIT YOUR PROJECTS NEEDS

1

**FULLY GRP KIOSK
WITH STEEL SKID BASE**

- ✓ 100% GRP (Fiberglass Reinforced Plastic) construction
- ✓ Complete corrosion resistance
- ✓ Integrated steel skid base for lifting and installation
- ✓ Ventilated design with SS304 louvers
- ✓ Ideal for harsh & corrosive environments.

2

**GRP ROOF, DOOR & WINDOWS
WITH CONCRETE / BLOCK STRUCTURE**

- ✓ Concrete/block structure for high strength
- ✓ GRP roof for long-lasting protection
- ✓ GRP doors & windows for durability and security
- ✓ SS304 louvers for optimal ventilation
- ✓ Cost-effective & robust solution.

3

**ALUMINUM SANDWICH PANEL
TYPE ROOF WITH CONCRETE
/BLOCK STRUCTURE**

- ✓ Concrete/block structure for stability
- ✓ Aluminum sandwich panel roof with insulation core
- ✓ Excellent thermal insulation & weather protection
- ✓ GRP doors & windows for durability.
- ✓ Energy efficient & long service life

KEY FEATURES

- ✓ High-strength, lightweight GRP construction
- ✓ Weatherproof, UV & corrosion resistant
- ✓ Ventilated design with SS316
- ✓ stainless steel louvers
- ✓ Secure anti-vandal locking system
- ✓ Fire-retardant & non-conductive material
- Custom cable entry points & internal layout
- Low maintenance & long service life

TYPICAL SPECIFICATIONS

- ✓ **Material:** Premium GRP (Fiberglass Reinforced Plastic)
- ✓ **Doors:** Reinforced GRP doors with SS304 hardware & anti-vandal locks
- ✓ **Windows:** GRP-framed, weather-resistant
- ✓ **Ventilation Louvers:** SS304 stainless steel
- ✓ **Roof Options:** GRP roof or Aluminum sandwich panel roof
- ✓ **Fire Rating:** Complies with ASTM E84/BS 476 standards
- Customization:** Sizes, colors & layouts, as per client requirements

APPLICATIONS

- ✓ Electrical Substations
- ✓ Transformer Enclosures
- ✓ Utility Distribution Systems
- ✓ Oil & Gas Facilities
- ✓ Industrial & Infrastructure Projects

SKYLIGHT & COLOR SHEETS

DURABLE LIGHT TRANSMISSION - WEATHER RESISTANT

Premium skylight and colored sheet solutions designed for industrial, commercial and architectural applications. Engineered for long-lasting performance, UV resistance and high light diffusion.

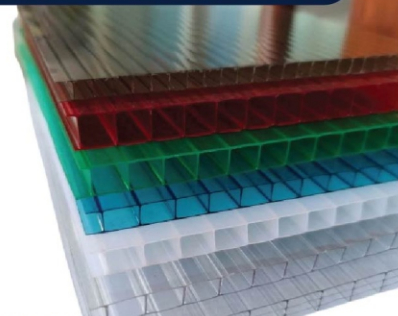

GRP SKYLIGHT & COLOR SHEET

- ✓ High-strength fiberglass reinforced sheets
- ✓ Excellent corrosion & chemical resistance
- ✓ Ideal for industrial roofing & harsh environments
- ✓ Uniform light diffusion with UV protection
- ✓ Long service life with minimal maintenance

POLYCARBONATE SKYLIGHT & COLOR SHEETS

- ✓ High Impact-resistant and lightweight sheets
- ✓ Superior clarity and high light transmission
- ✓ UV coated for outdoor durability
- ✓ Flexible and easy to install
- ✓ Ideal for architectural and modern roofing

OUR GRP LINING APPLICATIONS

1

**GRP LINING TO
UNDERGROUND TANKS
& CONCRETE STRUCTURES**

- ✓ Seamless, joint-free lining system
- ✓ Excellent resistance to chemicals, acids & alkalis
- ✓ 100% waterproof & leak-proof
- ✓ Protects concrete from corrosion and deterioration
- ✓ Extends structure life & reduces maintenance cost
- ✓ Suitable for potable water, wastewater, chemical storage & process tanks

2

**GRP LINING TO 2
SANDWICH PANEL
TO THE JOINTS**

- ✓ Seals & protects panel joints
- ✓ Prevents water ingress & leakage
- ✓ Enhances structural durability
- ✓ High adhesion to panel surfaces
- ✓ UV & weather resistant
- ✓ Suitable for roofs, walls & external applications

3

**GRP LINING TO
STP MANHOLE**

- ✓ Provides corrosion & chemical protection
- ✓ Leak-proof lining for STP manholes
- ✓ Resistant to sewage gases, acids & aggressive environment
- ✓ Smooth surface for easy cleaning & maintenance
- ✓ Increases service life of manholes. & reduces operational cost

KEY FEATURES

- ✓ High-strength GRP (FRP) composite system
- ✓ Excellent chemical & corrosion resistance
- ✓ Seamless & joint-free application
- ✓ High adhesion to concrete, metal & panels
- ✓ Fast curing & quick installation
- ✓ Lightweight yet extremely durable
- Customizable for different environments
- Complies with international standards

TYPICAL SPECIFICATIONS

- ✓ **Material:** High-quality GRP (Fiberglass Reinforced Plastic)
- ✓ **Application Method:** Hand lay-up/Spray-up
- ✓ **Thickness:** 2mm -5mm (as per requirement)
- ✓ **Adhesion Strength:** > 12 N/mm²
- ✓ **Temperature Resistance:** -30°C to +80°C
- ✓ **Chemical Resistance:** Excellent resistance to acids, alkalis, salts & wastewater
- ✓ **Standards:** ASTM D 3299/ BS 7159/AWWA C950

BENEFITS

- ✓ Prevents leakage & seepage
- ✓ Protects against corrosion & chemical attack
- ✓ Improves hygiene & water quality
- ✓ Reduces maintenance & repair cost
- ✓ Long-lasting performance
- ✓ Safe for environment
- ✓ Ideal for industrial & utility applications

FRP PIPE LAMINATION & JOINT WORKS

ENGINEERED
FOR SAFETY
BUILT TO LAST

High-quality FRP pipe lamination and joint works offering superior strength, chemical resistance, and leak-proof performance.

RPS DUAL LAMINATE PIPE

FEATURES

- ✓ Seamless leak-proof joint Lamination
Excellent chemical & corrosion resistance
- ✓ Strong, durable & lightweight FRP construction
- ✓ Highly skilled workmanship and advanced techniques.
- ✓ Controlled curing process for optimal strength
- ✓ Abrasion resistant joints that stand up to harsh environments.
- ✓ Low maintenance, long service life

SPECIFICATIONS

- ✓ Material: High-Quality FRP (Fiberglass Reinforced Plastic)
- ✓ Pipe Sizes: Up to 1000 mm Diameter
- ✓ Lamination Thickness: Variable (up to 10mm+ depending on pressure class)
- ✓ Lamination Process: Multiple layers of fiberglass mat, woven roving and resin application
- ✓ Pressure Ratings: Up to 40 bar (600 psi)
- ✓ Temperature Range: -40°C to +120°C

APPLICATIONS

- ✓ Water & desalination plants
- ✓ Oil & gas pipelines
- ✓ Food & processing plants
- ✓ Sewage & wastewater systems
- ✓ Power plants
- ✓ Industrial and municipal infrastructure

TRANSFORMERS / SUBSTATION APPLICATIONS

Premium quality GRP (Glass Reinforced Plastic) bathroom products designed for strength, hygiene and long lasting performance. Ideal for residential, commercial and industrial applications.

1 GRP SHOWER TRAYS

- ✓ High strength & durable
- ✓ Slip resistant surface
- ✓ Leak proof & easy to clean
- ✓ Lightweight & easy to install
- ✓ Custom sizes available

2 GRP BATH TUBS

- ✓ Ergonomic design for comfort
- ✓ Strong, durable & long lasting
- ✓ Smooth gel coat finish
- ✓ Easy to clean & maintain
- ✓ Custom sizes available

3 GRP WASH BASINS

- ✓ Hygienic & non-porous surface
- ✓ Scratch & stain resistant
- ✓ Lightweight & easy installation
- ✓ Elegant design & finish
- ✓ Custom sizes & designs

4 GRP SHOWER CUBICALS

- ✓ Strong & corrosion resistant
- ✓ Waterproof & leak proof
- ✓ Low maintenance
- ✓ Easy to assemble
- ✓ Custom sizes & configurations

- ✓ **SUPERIOR QUALITY**
Manufactured using high quality GRP/FRP with excellent finish.

- ✓ **DURABLE & RELIABLE**
Designed for long term performance in tough environments.

- ✓ **HYGIENIC & SAFE**
Non-porous surface prevents bacteria growth and ensures maximum hygiene.

- ✓ **CUSTOM SOLUTIONS**
Available in various sizes, styles and configurations as per requirement.

GRP DOMES

DURABLE | ARCHITECTURAL | CUSTOMIZABLE

High-quality GRP (Fiberglass Reinforced Plastic) domes designed for architectural beauty, strength, and long-term durability.

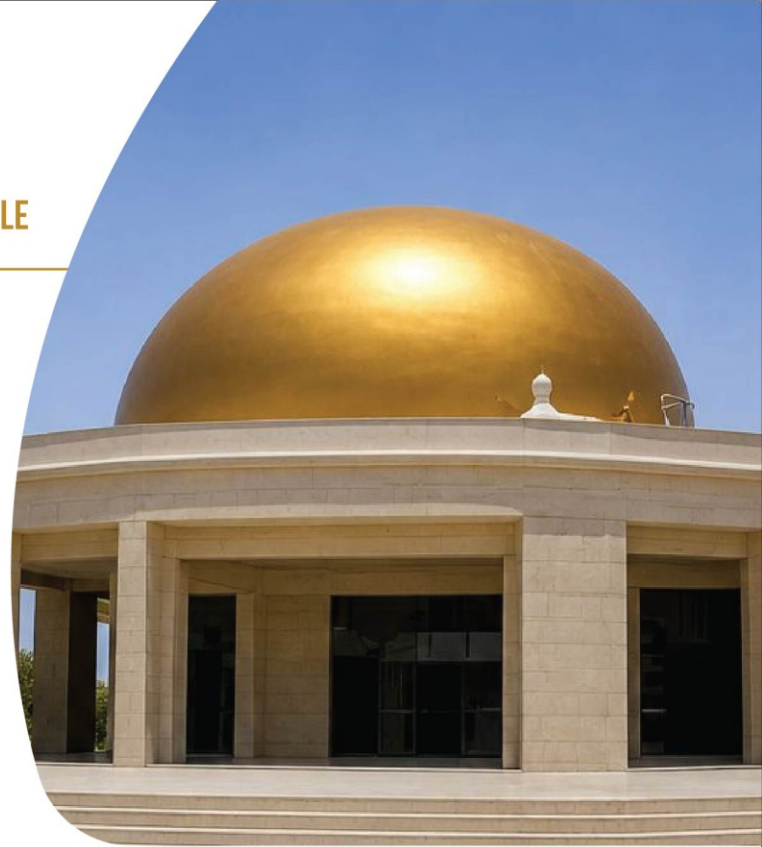

SUPERIOR STRENGTH & DURABILITY

Weather-resistant GRP material designed for long-lasting outdoor performance.

CUSTOM DESIGN FLEXIBILITY

Available in various shapes, finishes, and colors to match architectural requirements.

FEATURES

- ✓ High-strength, weather-resistant GRP material
- ✓ Available in various designs, styles, and colors
- ✓ Lightweight yet robust for easy installation
- ✓ Customizable to meet architectural needs
- ✓ Excellent UV and corrosion resistance

BENEFITS

- ✓ Enhances the aesthetic appeal of mosques, buildings and architectural structures
- ✓ Long lifespan with minimal maintenance requirements
- ✓ Suitable for diverse weather conditions: extreme heat

FEATURES

- ✓ Manufactured from high-quality GRP (Fiberglass Reinforced Plastic)
- ✓ Lightweight yet extremely strong
- ✓ Corrosion, rust & chemical resistant
- ✓ UV stabilized for long outdoor life
- ✓ Smooth finish with high aesthetics
- ✓ Customizable sizes, shapes and colors
- ✓ Easy to install and low maintenance
- ✓ Fire retardant & non-conductive (electrical safe)

BENEFITS

- ✓ Provides reliable protection for equipment and personnel
- ✓ Enhances building appearance and values
- ✓ Reduces maintenance and replacement costs
- ✓ Suitable for indoor and outdoor use
- ✓ Resistant to extreme weather and harsh environments
- ✓ Long service life with excellent performance

APPLICATIONS

- ✓ Security booths & guard rooms
- ✓ Electrical & control panel enclosures
- ✓ Telecom & communication shelters
- ✓ Equipment protection covers
- ✓ Building entrances & canopies
- ✓ Industrial plants & factories
- ✓ Parking areas & walkway shelters
- ✓ Commercial & residential projects

GRP CONCRETE SHUTTERING MOULDS

DURABLE | EFFICIENCY | VERSATILITY

Specialized GRP (Fiberglass Reinforced Plastic) moulds designed for efficient production of high-quality precast concrete elements.

HIGH PERFORMANCE MOULDS

Designed for smooth casting, dimensional accuracy, and long-term reuse.

CUSTOM & FLEXIBLE DESIGN

Available in various shapes, sizes and configurations for different precast applications.

COLUMNS

RCC PLANTERS

PRECAST STRUCTURAL ELEMENTS

ADVANTAGES

- ✓ High-strength & lightweight GRP moulds
- ✓ Smooth, seamless concrete finish
- ✓ Reusable for multiple casting cycles
- ✓ UV, weather & wear resistant
- ✓ Custom shapes & sizes available
- ✓ Easy assembly & dismantling
- ✓ Cost-effective & long-lasting solution

SPECIFICATIONS

- ✓ Material: High-quality GRP (Fiberglass Reinforced Plastic)
- ✓ Surface Finish: Smooth, gel-coated interior
- ✓ Durability: High reuse cycle capability
- ✓ Customization: Tailored mould designs to unique requirements
- ✓ Reinforcement: Structural ribs & support frames for added strength

APPLICATIONS

- ✓ Precast columns for buildings & bridges
- ✓ RCC planters & architectural elements
- ✓ Infrastructure & civil works
- ✓ Industrial precast production
- ✓ Landscaping & decorative structures

GRP SWIMMING POOLS

DURABLE & READY-TO-INSTALL

**ENGINEERED
FOR SAFETY
BUILT TO LAST**

FEATURES & SPECIFICATIONS

- ✓ Manufactured from high-quality - UV-resistant GRP
- ✓ Corrosion-resistant and weatherproof
- ✓ Pre-fabricated and ready-to-install
- ✓ Low maintenance and easy to clean
- ✓ Smooth bright blue interior finish
- ✓ Fully customizable sizes and depths available

SPECIFICATIONS

- ✓ **Wall & Base Thickness:** 10-12 mm
- ✓ **Interior Color:** Bright 3hoat Finish
- ✓ **Reinforced Structure:** External ribbing for added strength & stability
- ✓ **Installation:** Quick installation with minimal disruption
- ✓ **Safety Features:** Built-in steps ensured a juli-desistant surface

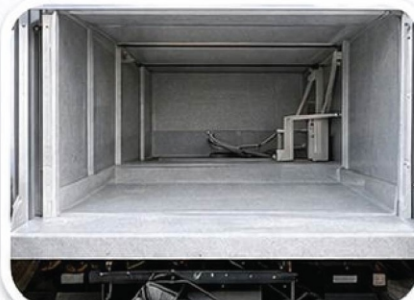

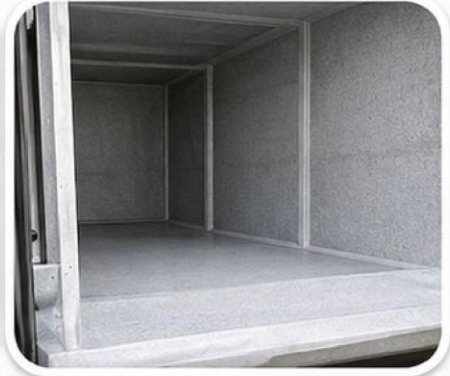

**QUALITY GRP SWIMMING POOLS FOR
LONG-LASTING ENJOYMENT AND SAFETY**
